

# Requirements for Contributors to the Journal of Mountain Agriculture on the Balkans (JMAB)

Journal of Mountain Agriculture on the Balkans publishes papers which are classified into the following categories:

**Original scientific paper** – contains unpublished results of the scientific investigations. Printed text (unformatted) should be up to 12 standard printing pages (A4), (in font Arial, size 10), including tables, graphs, figures and photographs.

**Review paper** – contains original and complete analytical survey of the concrete scientific issue and theme. Printed text, including tables, graphs, figures, pictures and references should not exceed 20 pages.

**Short communications** – contains unpublished results of the scientific investigations within limited scope. Printed text, including tables, graphs, figures and photographs should be up to 6 pages.

Papers for publishing in JMAB should be submitted to the Editorial Board electronically, by sending to E-mail: [jma@mail.bg](mailto:jma@mail.bg). Contributors from abroad send their papers in English, while Bulgarian contributors must send their papers in Bulgarian and English in two separate files.

Papers are published bilingually (in English and Bulgarian). They are double-blind peer reviewed. Reviewers are exclusively chosen by the Editorial Board. The papers which are upon the revision are returned to the corresponding author in order to be corrected. Authors have 20 days to make revision and return their manuscripts following reviewers and editor comments. Upon the stated deadline, it would be assumed that the author/s abandoned the publication of the paper in this journal.

## **Preparation of the manuscript for publication**

The text should be unformatted, single spaced, in font Arial, size 10 (except where it is stated otherwise). Latin names of plant and animal species are given according to international classification, in *Italic*.

**Original scientific paper** should be presented in the following manner:

### **The title of the paper**

The title of the paper should be brief, but accurately identifying the manuscript content, being written in bold normal (not only capital) letters, font size 14, without any abbreviations.

The forename and surname of each author without title are to be stated below, written with full forename (not by its initials), in light (not bold) normal letters, font size 12.

Institutions for which each author works are written below, font size 10. They should be in *Italic*,<sup>1, 2, ...</sup> numbers in suffix should be used to refer to the addresses of authors from different organizations.

Under authors' affiliations should be mentioned E-mail of the corresponding author, in *Italic*, indicated with \*, font size 12.

Example:

1\* , 2 , 3  
1  
2 " , 40000 " , (VEERU),  
3 " ,  
, 10000 ,

## A Study on the Risk of African Swine Fever Entering in Kosovo

Valdet Gjinovci<sup>1\*</sup>, Anthony Wilsmore<sup>2</sup>, Armend Cana<sup>3</sup>

<sup>1</sup>University of Mitrovica "Isa Boletini", Faculty of Food Technology, 40000 Mitrovica, Kosovo

<sup>2</sup>University of Reading, Veterinary Epidemiology and Economics Research Unit (VEERU),  
School of Agriculture, Policy and Development, United Kingdom

<sup>3</sup>Food and Veterinary Agency, Serology and Molecular Diagnostic Lab, 10000 Pristina, Kosovo

\*E-mail: valdet.gjinovci@umib.net

Review paper

Please, indicate the category of paper: *Original scientific paper;*  
*Review paper;*  
*Short communications.*

### **Original scientific paper should contain the following paragraphs:**

#### **SUMMARY and key words:**

The summary should not exceed 250 words. It has to be informative, with cited the main results obtained. It should be understandable without having read the paper. No more than 10 key words have to be stated. They must be properly selected and giving the essence of the study as they are used in information search in electronic catalogues and databases.

**INRODUCTION:** Must answer the following questions: What is known and what is new on the studied issue? What necessitated the research problem, described in the manuscript? What is your hypothesis and aim?

**MATERIAL AND METHODS:** The objects of research, organization of experiments, chemical analyses, statistical and other methods and conditions applied for the experiments should be described in detail.

**RESULTS AND DISCUSSION:** Present investigation results separately from discussion or together in one paragraph should be stated. Presentation of results should be precise and without repetitions, and include the evaluation of significant differences and other parameters.

Bulgarian contributors must send text and titles of tables, figures, graphs and photographs bilingual (in Bulgarian and English – the Bulgarian text is above the English). Only the titles of tables and other illustrations should be **bold**, font size 10.

### Example:

1.

120-

Table 1. Effect of the marketing year on the 120-day milk yield of 'Karakachanska' sheep breed

. 1. (I) 120-

Fig. 1. Average milk yield (I) for a 120-day milking period in 'Karakachanska' sheep breed

Tables, figures, graphs and other illustrations should be numbered consecutively with Arabic numerals and with adequate title and legend; width and height should not exceed 13 cm and 18 cm, respectively. Each table and other illustrations should be submitted on a separate sheet, (portrait orientation is recommended), at the end of the file containing the text of the paper in Bulgarian and must be cited in the texts in both files (in Bulgarian and English). The preferred position of each table, graph, figure, etc. in the text must be indicated. All the data inside the tables and other illustrations should be preferably in font size 8.

**Tables** should be prepared according to instruction for forming of tables in MS Office Word. Each column in the table must have heading, and when necessary, abbreviations should be explained in the legend. Do not duplicate matter that is presented in figures.

**Figures** should be prepared in Excel, and it is required to be sent the original Excel files, too. It is preferred and recommended the figures to be coloured for the online version, and to be in black and white for hard copy only.

Provide figures and photographs with good dark and light contrast. Prepare drawings with dark, heavy lines as to be appropriate for printing.

#### **Abbreviations and units**

Abbreviations may be used for other expressions provided that when first mentioned, they are defined in full, followed by the abbreviation in parenthesis and used consistently thereafter.

Units of measures should be noted by the International System SI.

The names of plants' varieties/cultivars and animals' breeds should be written in English only (In the Bulgarian text too) and without inverted commas.

**CONCLUSIONS:** Present the most important consequences for the science and practice resulting from the conducted research should be summarized in few sentences.

#### **ACKNOWLEDGEMENTS** (if there are any)

#### **REFERENCES:**

For all citations in the text the surname of the author is written in brackets (in Latin) and the year of publication, for example (Hamdon, 2005). In case of two authors, both surnames are given, for example (Staykova and Penchev, 2018), and for three or more authors is given the name of the first author, followed by "et al." (not italic), for example (Pacinovski et al., 2016). When several authors are cited, their names are arranged chronologically, for example (Morsy, 2002; Oravcová et al., 2006; 2009; 2010; Allah et al., 2011; Komprej et al., 2015), and when their publications are in one and the same year – they are placed in an alphabetical order, for example (Silanikove, 2000; Abecia et al., 2017; Naskar et al., 2017).

**At least 80 % of the whole references should be including contemporary scientific publications, published in the recent 10 years.**

A list with cited publications is applied separately, arranged in an alphabetical order according to the surname of the first author. When several publications are cited by the same author, first on the list are given one's individual publications, followed by publications in co-authorship. It is recommended to list the names of all authors and the reference list to be with consecutive numbers.

All references in Cyrillic alphabet are written as the names of the authors and sources are transliterated *in Latin*, and the titles of papers or books are translated into English, or transliterated if they do not have translation while being published in their original language. The letters in transliteration are replaced according to the Law on Transliteration. The original language of publications, translated into English, is given after the references in brackets (Bulgarian = Bg, Russian = Ru, Serbian = Sr, Macedonian = Mk, Greek = Gr, etc.).

### Example:

1. **Staykova, G., N. Stancheva and I. Dimitrova**, 2015. Karakachan Sheep Breed. *Bulgarian Journal of Animal Husbandry*, LII (5), 81-89 (Bg).

### References of cited literature

#### **a) Papers in scientific journals**

The references of **papers** include the name of authors, year, title, source (in *Italic*), volume, number of issue, pages. The names of all authors are written, as the first author is given in inversion (surname, personal name), and the others – in a regular order (personal name and surname). Example:

2. **Stojiljkovic, M., O. Stevanovic, S. Ivanov, D. Drobnjak, M. Urosevic and R. Trailovic**, 2015. Morphometrical Characterisation of Karakachan Sheep from Stara planina, Serbia. *Bulgarian Journal of Agricultural Science*, 21 (6), 1278-1284.

#### **b) Books**

References of **books** include the names of authors, year, title, publishing house, place of publication.

#### Example:

3. **Boykovski, St.**, 2003. Studies of the Copper-red Shumen Sheep. Himeria Publishing House, Shumen, 146 p. (Bg).

#### **c) Parts of books and publications in collections of scientific forums**

After the title is written "In:", as the pages are also given in the end.

1. **McGrath, S. P.**, 1998. Phytoextraction for Soil Remediation. In: Plants That Hyperaccumulate Heavy Metals (R. R. Brooks, ed.). CAB Int., Wallingford, UK, pp. 261-287.

2. **Vasileva, V.**, 2012. Effect of Mineral Fertilization and Water-Deficiency Stress on Chemical Composition of Lucerne (*Medicago sativa* L.). In: Proceedings of the 24<sup>th</sup> General Meeting of the European Grassland Federation Grassland – a European Resource (P. Goli ski, M. Warda, P. Stypi ski, Ed.). Lublin, Poland, . 391-393.

#### **d) Summaries of papers from scientific forums**

**Baychev, V.**, 1994. Hybrids between (*Triticum aestivum* L. x *Secale cereale* L.) and Triticale (2n=6 =42). In: 3<sup>rd</sup> International Triticale Symposium, 13-17 June 1994, Lisbon, Portugal (Abstracts), B-12.

#### **e) Dissertation**

**Zhekova, E.**, 2018. Study on the Economic Importance of Damage to Alfalfa (*Medicago sativa* L.) of *Plagionotus floralis* Pall. and opportunities to control. Dissertation, Sofia, Bulgaria.

**Hamdon, H. A. M.**, 2005. Productive and Reproductive Traits of Chios and Farafra Sheep under Subtropical Egyptian Conditions. Ph. D. Thesis, Faculty of Agric., Assiut. University, Egypt.

#### **f) On-line materials**

**Lecoq, H. and C. Desbiez**, 2012. Viruses of Cucurbit Crops in the Mediterranean Region: an Ever-changing Picture. *Adv. Virus Res.*, 84: 67-126. doi: 10.1016/B978-0-12-394314-9.00003-8.

<http://www.ncbi.nlm.nih.gov/pubmed/22682166>

**Review paper** should contain the title with the authors, summary, key words, analysis-discussion of the specific theme and references, presented in the same way as mentioned above in the case of original scientific paper.

**Short communication** should be prepared in compliance with the instruction for the original scientific paper.

**We would greatly appreciate if the authors prepare the manuscripts in compliance with the above stated requirements as to facilitate the work of the editorship. If the paper is not presented according to the stated requirements, it will not be accepted for the possible publication.**

After publication the corresponding author receives by mail PDF file of the manuscript.

*Editorial Staff*
